PARKING & BUILDING ACCESS

TOUR PARKING

The Bryce Jordan Center was designed to help make show days more efficient for touring acts. The parking lot directly behind the arena (OLS – Orange L South) is approximately 40,000 square feet and can easily accommodate large tours. The lot is fenced-in and includes seven (7) locations for shore power for your busses, etc. There are several overflow lots if needed that are conveniently close to the venue.

The arena has a total of three (3) accessible loading docks and two (2) truckways that can be used for loan-in/out. The majority of touring events use our truckways to pull their trucks directly into the arena minimizing the push to the arena floor. There is approximately a 300 foot push from the loading docks and around a 75 foot push from the truckway to the arena floor.

PUBLIC PARKING

The Bryce Jordan Center has ample and convenient parking located near and around the building. Several Penn State campus parking lots are used on show days for easy access and departure. Patrons also enjoy the convenience of multiple ticket outlets and on-line purchasing.

The primary lot for accessible parking spaces is located immediately east of the Bryce Jordan Center. Access to this lot is available off of Porter Road. Overflow accessible parking spaces are available in the northwest corner of Parking Lot 44, located adjacent to the east side of the Jordan Center. Access to Lot 44 is gained off of Porter Road. Overflow accessible parking is also available immediately north of the Bryce Jordan Center in Stadium West. Access to this lot is available off of University Drive.

The drop-off and pick-up only area is located in the front turnaround off of Curtin Road. No parking is available at this location during Bryce Jordan Center events. For the convenience and safety of all Jordan Center guests, pick-up will be delayed until pedestrian traffic is cleared on Curtin Road at the end of all events.

Parking is available to accommodate guests for any event that is hosted by the Bryce Jordan Center.

Please contact the Bryce Jordan Center for details on each policy to ensure the success of your show.

CABLES AND CORDS

Any cable or cord that is in an area on the floor that is accessible to a guest, employee or member of a visiting tour must be covered by a yellowjacket, cable ramp or some kind of tape in order to minimize a tripping hazard.

PYROTECHNICS

All shows must contact the Events Manager or Production Manager and provide all technical information prior to any rigging or pyrotechnics.
